Guide to the Area Around Unazuki Station

Location: Right in front of the station

Kurobe River Electric Memorial Hall

Discover the charm of the remote Kurobe region and the history of its hydroelectric development through multimedia presentations and 3D models. [〈Opening Hours: 7:30 AM – 6:00 PM〉](#)

Around 1 minute on foot

Torokko Plaza

A retro-style locomotive with a boxy shape is on display, perfect for commemorative photos.

Around 5 minutes on foot

Yamabiko Bridge

This former railway bridge was once used by the Torokko Electric Trains. From here, you can enjoy views of the Shin-Yamabiko Bridge—where the trains now run—along with the stunning natural beauty of the gorge.

Around 3 minutes on foot

Yamabiko Observation Platform

Perched directly above the Shin-Yamabiko Bridge, it's the perfect spot for capturing photos of the Torokko Electric Trains.

Ticket Reservations and Sales

《Less than 15 people》

Reservations

- Reservations can be made via the website, by phone, or at the Unazuki Station ticket counter.
- You can make a reservation from three months before the travel date until 3:00 PM on the day before (until 5:00 PM at the Unazuki Station ticket counter). (Reservations for rides between April and July 1 open on April 1.)

Same-day Tickets

Available at the Unazuki Station ticket counter starting from 7:40 AM.

Clothing Advice

The weather in the gorge can change quickly, so bringing warm clothing is recommended. A hat and comfortable walking shoes will also make activities like trekking more enjoyable.

On rainy days, there's a chance your clothes may get wet, so we recommend wearing rain gear (a raincoat).

Rain gear is also available for purchase at the station shop.

Food & Souvenir Shop (Unazuki Station)

We offer a variety of options including bento lunch boxes, rice bowls, noodles, and souvenirs.

Boarding Procedure

Please arrive approximately 20 minutes before departure to complete the boarding procedure.

The Origins of the Kurobe Gorge Railway

The history of the Kurobe Gorge Railway began alongside Japan's hydroelectric power development. Construction of the railway began in 1923 (Taisho 12), and the full 20.1 km line to the terminus at Keyakidaira was completed in 1937 (Showa 12). Later, in 1953 (Showa 28), the railway was granted a license under the Local Railway Act and began operating as a sightseeing railway. Today, affectionately known as the "Torokko Electric Train," it is a favorite among tourists, including many from overseas.
